Title of Article: _____

Amount Paid (please circle appropriate amount):

CAMFT clinical members	\$10 per CE Hour
Nonmembers	\$15 per CE Hour

CAMFT will issue you a certificate for continuing education units (CEs) based on the following formula: One hour of continuing education credit will be issued for every six (6) pages of article content. So, if an article is between one (1) and six (6) pages long, one (1) CE hour will be issued; if an article is between seven (7) and twelve (12) pages long, two (2) CEs will be issued; and, if an article is between thirteen (13) and eighteen (18) pages long, three (3) CEs will be issued.

*Credit cards or checks will be accepted for mailed assessments and evaluations.
Credit cards will be accepted for faxed or e-mailed assessments and evaluations.
(Please call in or fax your credit card number to CAMFT—do not e-mail credit card information!).
Checks are to be made payable to: CAMFT
Fees paid for self-study programs are not refundable.*

Self-Study Program**

Self-Study Assessment Questions

General directions: You will have to answer Question 1 and, depending on the content of the article you have chosen, either Question 2 or Question 3. Consequently, please read each question carefully to determine whether you are required to respond to Question 2 or Question 3. **The response needs to be at least 250 words.**

Please submit your responses on a separate piece of paper, be sure to reference the title of the article and list the number of the question you are responding to.

1. Please state the main point(s) of this article. Do you agree or disagree with the author's main point(s)?
2. If the article concerns "direct patient care covering specialty areas of therapy" (e.g., theoretical frameworks for clinical practice, or intervention techniques with individuals, couples or groups), please indicate how this article helped you or may help you with such work.
3. If the article concerns "indirect patient care covering pragmatic aspects of clinical practice" (e.g., legal or ethical issues, consultation, recordkeeping, office management, insurance risks and benefits, managed care obligations, research obligations, supervision training), please indicate how this article helped you or may help you in your clinical practice.
